To Purchase Tires:

While on-site at the track, order tires through the TrackSide Performance mobile app (see Yokohama Tire Ordering Memo for details) prior to dropping tires and wheels off at the service trailer. Also, clear all weights from wheels, remove valve cores, remove center caps, and ensure the car's number & App REQ # are prominently displayed on the tire and wheel prior to dropping them off for service. Please note all tires marked 'save' must be retrieved from the service trailer by the end of each day.

The TrackSide Performance hours of operation will vary with each event schedule. The likely hours will be:

- 12:00pm the day prior to the first on-track activity
- 90 minutes prior to the first session of the day until 60 minutes after the final session of the day

The price of tires ordered away from the track is the at-track price plus shipping and applicable taxes of the shipping destination. Tires will ship within 48 hours of ordering. Any damages incurred during shipping are the sole responsibility of the customer.

To purchase tires while not at the track please contact:
