

At-Track Tire Supply Guidelines – Porsche Sprint Challenge and Porsche Endurance Challenge

DATE: May 26, 2026

TO: Porsche Sprint Challenge & Porsche Endurance Challenge Competitors

CC: USAC, PMNA, Trackside Performance

RE: Yokohama Standard At-Track Tire Supply

Yokohama Tire is thrilled to be the official tire supplier for Porsche Sprint Challenge North America, Porsche Sprint Challenge USA West and Porsche Endurance Challenge North America. The following guidelines outline standard tire quantities Yokohama will bring to each event per registered competitor, as well as the process for requesting additional tires.

Standard Tire Availability (Registered \geq 10 Days Prior to Event)

For competitors who complete race registration at least 10 days prior to the event, Yokohama will bring the following tire quantities to the track per car:

USAC-Sanctioned Test Day

- 1 set of ADVAN A005 (dry)

Sprint Race (35-minute + 1 lap race)

- 3 sets of ADVAN A005 (dry)
- 1 set of ADVAN A006 (wet)

Endurance Race (100-minute race)

- 2 sets of ADVAN A005 (dry)
- 1 set of ADVAN A006 (wet)

These quantities reflect the standard number of tires Yokohama will have available at-track per entry. Teams will be notified in advance if tire quantities differ for a specific event.

Late Registration (Less Than 10 Days Prior)

Competitors registering within 10 days of the event must contact Trackside Performance directly to confirm tire availability.

Requesting Additional Tires

Teams requiring tires beyond the standard quantities must:

- Submit requests through Trackside Performance
- Specify the number of additional sets required
- Submit requests at least 10 days prior to the event to guarantee availability

Requests submitted after this deadline will be subject to availability.

Please plan accordingly and contact Trackside Performance with any questions or special requirements.
